Reconnaissance Practice

1. Domain / IP Information

- IP Address: 103.170.64.216
- Country: India
- City: Pimpri
- ISP / Organization: DREAM CABLES
- ASN: AS142449

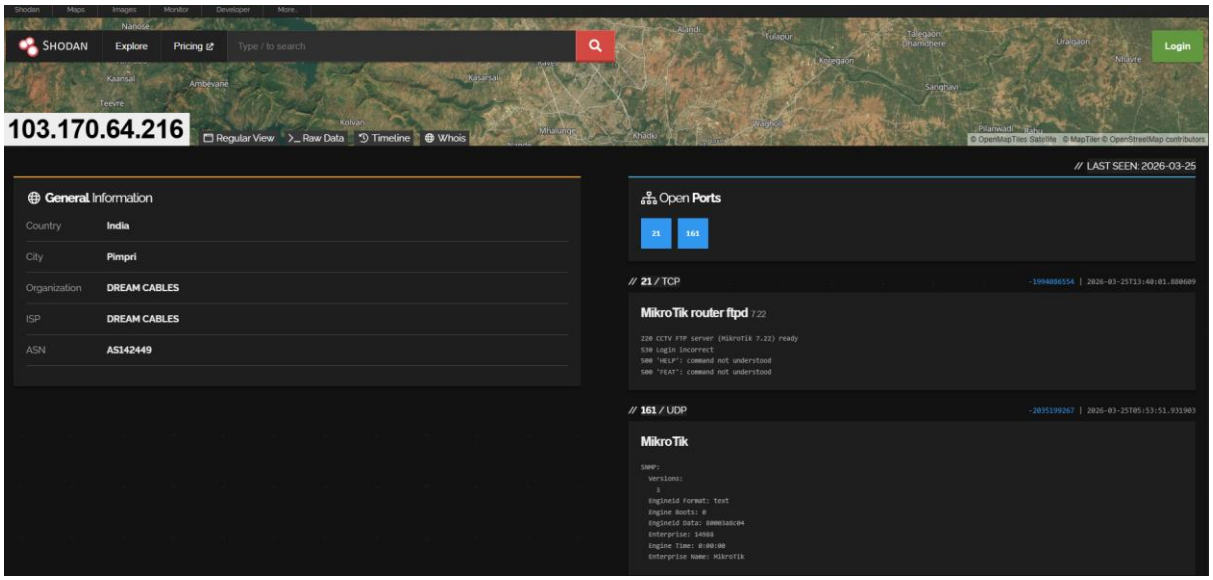
2. Subdomains

- Not identified (IP-based reconnaissance)

3. Exposed Services

- **Port 21 (FTP)** → MikroTik router FTP service (v7.22)
- **Port 161 (SNMP - UDP)** → MikroTik SNMP service

4. Evidence



5. Asset Mapping Log

Timestamp	Tool	Finding
2026-03-25 13:40:00	Shodan	Target IP identified: 103.170.64.216
2026-03-25 13:41:00	Shodan	FTP service (Port 21) open - MikroTik router
2026-03-25 13:42:00	Shodan	SNMP (Port 161 UDP) exposed
2026-03-25 13:43:00	Shodan	ISP identified: DREAM CABLES

6. Recon Summary

Reconnaissance of the target IP revealed it belongs to DREAM CABLES in India. Shodan identified exposed services including FTP on port 21 and SNMP on port 161, both associated with a MikroTik router. The presence of SNMP suggests potential information disclosure, increasing the attack surface for further enumeration.
